

# Higher Alignment Coaching Gift Certificate

This certificate entitles you to a session with a Higher Alignment Coach to do the following:

1. Understand the differences between you and your parents to see if incomplete patterns are affecting your choices in romantic and business relationships.
2. To explore repeating patterns in relationships so source issues can be identified and neutralized (which allows us to forgive and complete past relationship incompletions).
3. To expand and enrich Self understanding about our creative contribution, enabling us to develop a more fulfilling vision and discover our authentic life contribution.

Each coach will request that you bring the following:

1. Pictures of parents, grandparents, past relationship partners and current family members who represent the issues you are working with in relationships.
2. For longer sessions, we recommend bringing snacks or drinks of your choice.

● Higher Alignment Coaches allow clients to validate and speak their own Truth. The Coach's perspective is not as important as the self discovery aspect of the client. Higher Alignment uses four sets of tools to make the conversation interesting and productive. These sets of tools are the Twelve Motives, Twelve Relationship skills, Fourteen Compatibility Factors and how to create an independent Common Neutral Ground. These tools enrich self understanding so we can better appreciate our differences with others. This process makes possible a clearer understanding of the lessons, opportunities and challenges in any relationship.
